

RAJARSHI CHATTERJEE

Software Engineer

About Me

A motivated Computer Science and Engineering undergraduate with strong problem-solving and programming skills. Passionate about software development, database systems, and full-stack technologies. Experienced in academic leadership as a Class Representative and Core Committee Member of Team Eclectica, demonstrating strong teamwork, communication, coordination, and organizational abilities. Eager to apply technical knowledge to real-world challenges, learn emerging technologies, and contribute effectively to innovative software engineering projects.

Technical Languages

- C
- C++
- PYTHON
- JAVA
- SQL
- HTML | CSS | JS

Communication

- English (Fluent)
- Bengali (Fluent)
- Hindi (Intermediate)

Hobbies

- Exploring new places
- Photography

Experience

Pinnacle Labs

December 2024 – January 2025

Web Development Intern

- Developed a responsive personal portfolio website using HTML and CSS.
- Built a calculator web application using HTML, CSS, and JavaScript.
- Implemented interactive frontend functionality using JavaScript.
- Gained practical experience in web development, user interface design, debugging, and software development workflows.

Projects

BharatVote – Voting Management System

Nov 2025

HTML | CSS | JavaScript | Node.js | Express.js | MongoDB | JWT

- Developed an online voting system with voter authentication, candidate management, and vote casting.
- Implemented one-vote-per-user functionality with MongoDB.
- Designed admin dashboard and election management features.
- Implemented JWT-based authentication and secure backend architecture.

Inventory & Supply Chain Management System

May 2026

React.js | Node.js | Express.js | Oracle SQL | Python | Machine Learning

- Designed a full-stack system for inventory, warehouse, and supplier management.
- Integrated barcode tracking and demand forecasting concepts.
- Designed ML-based demand prediction and inventory optimization.
- Planned REST APIs, role-based access control, and database integration.

Education

Techno Main Salt Lake

2023 – 2027

Bachelor of Technology in Computer Science and Engineering

CGPA : 6.191

Apeejay School

CBSE - XII (Percentage : 68.2%)

2023

Garden High School

ICSE - X (Percentage : 85%)

2021

Achievements

- Web Development Intern – Pinnacle Labs.
- Sponsorship Co-Head – Eclectica 2025–26, Techno Main Salt Lake.
- SMART INDIA HACKATHON FINALIST (2025)

Certifications

- NPTEL Java Certification – IIT Kharagpur (NPTEL) | November 2025
- Database Management System – IIT Kharagpur (NPTEL) | March 2026
- Programming with Python – University of Michigan (Coursera) | April 2024

Areas of Interest

Software Engineering | Full-Stack Development | Backend Development | Artificial Intelligence | Machine Learning | Database Systems | Cloud Technologies | Data Structures and Algorithms

Technical Skills

- Programming Languages: C, C++, Java, Python, JavaScript
- Web Technologies: HTML5, CSS3, JavaScript, React.js
- Backend Technologies: Node.js, Express.js, REST APIs, JWT
- Databases: MongoDB, MySQL, Oracle Database, SQL
- Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Computer Architecture, Formal Languages and Automata Theory
- Tools and Platforms: Git, GitHub, Vite, Render, Vercel, MongoDB Atlas
- AI/ML: Python, Machine Learning, Pandas, Scikit-learn
